**Quickly removes stubborn deposits and stains.**

**Perfect for**  
**Pumps**  
**Glass**  
**Ceramic**  
**Metal**  
**Plastic**

## **AquaLife CitriClean Pump and Equipment Cleaner**

**AquaLife CitriClean** quickly removes unsightly organic materials, mineral deposits, and stubborn calcium deposits that build up on equipment and accessories over time. Keeping equipment free of debris ensures more efficient operation and longer life. **AquaLife CitriClean** is the safest, most effective cleaner for your aquarium equipment and accessories. **CitriClean** is 100% food grade citric acid in crystalline form and yields more solution than other brands. Simply mix with water and use for removing stubborn deposits and stains from pumps, glass, ceramic, metal, and plastic aquarium equipment and accessories.

**Directions:** Add 1/2 cup **AquaLife CitriClean** to 1-1/2 gallons of RODI water and mix until dissolved. Use a cloth or brush to remove debris. Thoroughly rinse equipment with RODI water before returning it to the aquarium. One scoop (enclosed) makes 1-1/2 cups of liquid cleaner.

**Category:** Maintenance & Cleaning

**Packaging:** Available in 1.5lb and 8lb.

**CAUTION:**

Never add **AquaLife CitriClean** directly to the aquarium with plants or fish. It is designed for external cleaning only. After cleaning, rinse equipment well with fresh water and dry for storage or use as desired. Avoid eye contact.

**Makes up to 12 gallons of cleaning solution.**

**For aquarium use only.**  
**Keep out of reach of children.**
